REHAU TOTAL70 ANCILLARIES

PROFILE PRINT

The following profile print shows PVC-U sills, ancillary profiles and mouldings dedicated to the REHAU TOTAL70 Window and Door system.

Each item is identified by at least one Article No., many have two Article Nos. The first Article No. identifies the basic item, the second identifies the laminated item.

A 3 digit Variant No. after the Article No. then denotes standard packaging and colour options:

Key to variant system.

Our verbal and written application engineering advice is based upon experience and the best of our knowledge. However, it is to be regarded as non-binding information. Working conditions and use under conditions for which the product was not intended and over which we have no influence exclude any claim resulting from our information. We recommend that a check is made as to whether the REHAU product is suitable for the envisaged purpose. Application, use and processing of the products is carried out beyond the scope of our control and are therefore carried out exclusively at your own responsibility. If liability should still apply, then this is restricted, in the case of all damage, the value of the goods supplied by us and used by you.

Our warranty applies to the consistent quality of our products as per our specification and in accordance with our general terms and conditions of delivery and payment.
